

JOSHUA L GESCHWENDT

EXPERIENCE

Dealer Inspire (Cars.com)

Product Developer • November 2018 to Present

Support the company's Messaging Platform and AI ChatBot as a full-service developer. I am heavily involved in the product's evolution, including maintenance to the internal API and web applications, enhancing functionality and architectural components, and working with the product's support team.

Stack: Laravel/NodeJS/React/TypeScript

BLACK

Software Designer • August 2017 to November 2018

Worked with strategists and designers to understand and evaluate an organization's current systems, processes, and technologies to develop strategies which enhanced what was working well and provided solutions where gaps existed. For many clients, we built robust cloud and microservice solutions.

Stack: Elixir/NodeJS/React/TypeScript

Varsity News Network

Senior Software Engineer • June 2016 to August 2017

Lead developer tasked with creating an advertising platform that could support national sponsors across the nationwide network of high school athletic departments. Worked to rebuild the website infrastructure to streamline the product features and offer a mobile first experience.

Stack: AngularJS/Elixir/Symfony/React/WordPress

Springthrough

Developer • November 2014 to June 2016

Worked with several teams of designers, developers, and project managers to build products and websites for clients across a wide variety of platforms and technologies. Solutions ranged from complex single page web applications to customized enterprise content management systems.

Stack: AngularJS/ASP.NET/C#/Sitefinity
